

**EG5500CX**

The Honda EG5500CX is powered by the advanced GX390 Four-Stroke engine, making it one of the most reliable industrial generators on the market.

## INTRODUCTION

### POWER AND PRECISION

---

Like its siblings the EG3600CX, EG4500CX and EG5500CXS, the EG5500CX features a large capacity fuel tank for extended operating time, as well as the convenience of a fuel gauge to keep you on track.

---

In keeping with Honda's reputation for smooth and quiet operation, the EG5500CX is fitted with anti-vibration engine mounts and a large noise-suppressing muffler.

---

Stable power delivery comes courtesy of Honda's highly advanced D-AVR (Digital Auto Voltage Regulator) which uses a microcomputer to precisely control output voltage, providing high quality stable electricity. This feature offers a greater level of stability than conventional AVR types resulting in reduced load on the devices driven by the generator, increasing their life and facilitating 100% performance.

---

### ENDLESS OPPORTUNITIES

---

Whether portable power is required for farming, industrial work, mining, camping, emergency services or domestic use, look no further than Honda's extensive range of quality portable generators.

---

Designed and built with user convenience and environmental impact in mind, Honda generators feature advanced four-stroke engines for strong performance and fewer emissions.

---

Honda's four-stroke engines eliminate the need to mix fuel and oil, which saves time and money. They also provide superior fuel efficiency and emit significantly less carbon and noise than most of their two-stroke counterparts.

---

### PLENTY OF FEATURES

---

For functionality and added safety, an AC/DC circuit breaker and oil alert light comes standard on the EG5500CX, while an easy-to-use control panel features 15 amp sockets, battery charger and circuit protector.

---

Equipped with a full steel frame to ensure engine protection and aid transportation, this generator is also available with an optional four wheel dolly kit.

---

And like all Honda generators, it features Honda's easy start technology for hassle-free starting even after long periods in storage, and operate on standard unleaded fuel.

---

## WARRANTY

---

Coming in at a lightweight 84kg with a convenient full frame ideal for easy transportation and engine protection, the EG5500CX is your one-stop-shop for reliable, industrial-strength power.

---

And with a 4 year Domestic Warranty and 12 month Commercial Warranty, it's backed by Honda to last in even the most testing of Australian environments.

---

Keep it serviced via Honda's 450-strong authorised dealer network around the country, and your business will never miss a beat with the EG5500CX.

---

## TECHNOLOGY

---

8.3 amp/12 volt DC, maximum 5500W AC

---

High output performance and fuel efficiency via Honda's revolutionary GX390 engine

---

## PERFORMANCE/USABILITY

---

Easy and reliable starting via the mechanical decompression system

---

## PEACE OF MIND

---

Extended operating time with large capacity 24 litre fuel tank featuring a fuel gauge
